Regional meetings for the 2027-2028 programme

Dear members,

We invite you to discuss the 2027-2028 season with us. On 18 October 2026, the Board approved the main directions and planning principles. We now want to use your experience and suggestions to develop a programme that meets members' needs and that we can deliver.

Approved directions

- **Membership and training.** Separate training fees from membership fees, with individual bookings and packages. Clearly define benefits for members, driver members and competitors.
- **Drift Stars.** Plan four competitions: three organised by DDK and one with a partner club, together with competition packages and entry fee subsidies for members.
- **Licences and equipment.** Continue the licence subsidy and benefits for tyres, safety equipment and wheels. Introduce clear ordering procedures, records and agreements for competitors receiving material benefits.
- **Community and development.** Keep the club picnic, explore shared transport to races abroad, and develop mentoring and pathways from recreational driving to competition and other club roles.
- **Club governance.** Review the club statutes, competitor representation, the proposal for voting rights after one year of membership, and safeguards for the club's stability.
- **Delivery and the 2030 vision.** Assign responsibilities, costs and funding to activities. Strengthen transparency, member involvement, volunteering and international cooperation.

Membership fees, package prices, subsidy amounts and final amendments to the statutes have yet to be determined. They will be developed through cost calculations and consultation, then submitted for the required approval. Existing rules remain in force until changes take effect.
